EXPERIENCE

Intern | SOCIA I.T. Solutions | Jan 2026 – Apr 2026

Assigned to the Lootbx Project

- Contributed to production-level features for the mobile app using React Native and Expo
- Translated Figma mockups into responsive, reusable components
- Refactored code to improve performance and maintainability
- Managed builds with EAS Build, streamlining QA testing

PROJECTS

FEEDER — *React Native (Expo), Firebase, Arduino*

- Built separate feeding profiles for cats and dogs with alarm-based scheduling that auto-triggers Arduino dispenser
- Integrated Firebase for real-time sync between mobile app and Arduino hardware
- Designed a pet-selection UI flow that prevents cross-profile configuration conflicts

MLV St. Booking System — *React Native (Expo), Supabase, TypeScript, Expo Notifications*

- Full-stack real-time booking system with auth, status management (Pending/Confirmed/Cancelled), and push notifications
- Built date and time validation logic to prevent duplicate or conflicting reservations
- Integrated Expo Auth Session for OAuth-based authentication and Expo Notifications for booking status updates
